

Open Donor: Abner

Staff Impression

Abner is tall with large muscles from his athletic lifestyle and regular exercise. He enjoys playing a variety of sports and engaging in just about any outdoor activity. Abner has thick, wavy, dark brown hair and big green/brown eyes. He has an equally dark beard that he keeps short and neatly trimmed, hiding his small dimples. Abner has masculine features that make him a very handsome individual.

Abner is very athletic, intelligent and outgoing. He played sports at the Division I collegiate level but also has an artistic side, enjoying painting and ceramics. He has exceptional interpersonal skills and is quick to laugh and make those around him laugh and feel completely at ease. Abner is an amazing father and we love how family oriented he is. When asked why he wants to be a donor, Abner answered, "It's a special thing to be a part of – science can be a wonderful thing." Abner is a patriotic, strong, athletic and good-humored donor.
