

Open Donor: Melvin

Staff Impression

Melvin has big, emerald-green eyes that twinkle when he smiles, which he does quite often. His smile also reveals a set of perfect, white teeth. Melvin has silky, wavy brown hair, fair skin, and rosy cheeks. He has a strong nose and symmetrical features. This donor is also tall and lean with broad shoulders.

Melvin is a brilliant physician, raised by two equally brilliant physicians! This young man is full of intelligence, drive, and compassion. He loves helping others and is full of empathy, which is why he decided to follow in his parents' footsteps and become a medical doctor. When he's not working, Melvin enjoys running, playing the cello, and challenging friends to a game of chess. We are thrilled to have Melvin in our donor program.
