

Open Donor: London

Staff Impression

London has almond-shaped blue eyes and a playful, friendly smile. His lips are light-pink and his teeth straight and white. His complexion is smooth and his skin color is medium, not quite olive. London is very tall, standing over six feet, with a strong, lean, athletic build.

London is great at math and loves staying active through sports such as skiing, basketball, and, when weather permits, fishing. He considers himself to be an open-minded, accepting person. He is kind, gentle, and an overall good human being. London would make a fantastic donor for any family.
