

Warren Staff Impression

Warren has thick, wavy, light brown hair, bright green eyes, and a unique skin tone that is medium and tans nicely but with an all over smattering of freckles. He has a square face, average sized nose, and full, pink lips and a wide smile. He is lean and muscular without looking overly athletic.

Warren is a very smart, talented, and engaging guy. He is in school for Entrepreneurship with a focus in tech; he is already the founder and CEO of his own tech start up, and has long term plans to establish and grow a large-scale company with a focus on innovating products and bettering the lives of the general populace. He also has a side business with some friends as a local Chocolatier, which indulges his love of cooking and baking. Warren also excels creatively; he is a classically trained singer from a young age, plays multiple musical instruments, and like to dabble in drawing, welding, and metal casting. Warren is bound to be extremely successful in life, and we are very impressed with how motivated and tenacious he is!
