

Open Donor: Devon

Staff Impression

Devon is a handsome young man with thick, curly dark brown hair and big brown eyes. He has angular facial features, full lips, and a wide smile with straight white teeth. Devon has a medium dark skin tone, with a very clear complexion, and is usually sporting a little facial hair. He has a medium build with a strong torso and long legs.

Aside from his good looks, Devon is also very intelligent. He is studying computer programming and hopes to have a career as a professional programmer in the near future. Devon proudly embraces his inner nerd and loves to watch Lord of the Rings and play video games on his free time. Being a dad to two (soon to be three!) little ones is Devon's number one priority. He always has stories and smiles to share with the staff and has been a lively and warm addition to the donor program.
