

Staff Impression: Ren

Ren is tall with an average to athletic build, which comes from his love of sports. He played multiple sports throughout his childhood and high school career, with soccer being his favorite. Ren has fair skin with a few freckles, thin straight blonde hair and sparkling green/brown eyes. One characteristic that stands out with him are his fantastic dimples, especially when he smiles.

Ren is currently pursuing a degree in finance, with an ultimate career goal in life to be a successful hedge fund manager. Not surprising with a financial degree, he excels in mathematics and some hobbies include researching business information and staying up to date on world news and current worldly events. Ren is a smart, well-mannered and caring donor who is very kind to others.
