Arizona Staff Impression

Arizona is tall, strong, and handsome! He maintains his muscular build with regular cardio and weight training. He also likes spending as much time as possible outdoors hiking and being active. Arizona has big, bright green eyes that really stand out against his fair skin. He has a rugged jawline, an amazing smile, and an all-around guy-next-door look that is hard to miss!

Arizona has completed his college education and obtained his bachelor's degree in Accounting and currently holds a position in that field. Arizona very much embodies the country boy attitude and is most at home in a rural community away from the hustle and bustle of the city. Growing up he camped, hunted and fished and these are still some of his favorite things to do. He is very quiet and a bit shy until you get to know him, but once you do, he is very easy to talk to. You would think his size would be intimidating but he is more of a gentle giant than anything else. He has quickly become one our favorite donors due to his caring and kind nature.
