

Dobrich 16012 Staff Impression

Dobrich is a very attractive donor. He is tall, standing at 6'3" with an athletic frame. He is physically active, engaging in team and solo sports. Dobrich has soulful blue eyes that stand in stark contrast to his thick dark black hair and fair complexion. He has an oval face, lovely full lips, and a shy smile.

Dobrich is ambitious, securing a double major in International Business and Marketing. He currently uses these skills in hospitality marketing, though he hopes to someday own a hospital or medical facility to be able to serve those in need. These qualities and more are attributed to being raised by hardworking, compassionate, driven parents. Dobrich shares a close relationship with his siblings and makes friends easily and is an exceptional addition to our donor program.
