

### **Humboldt (12643) Staff Impression**

Humboldt is tall, muscular, and handsome, with bright green eyes and dark curls that contrast attractively with his fair skin. His rectangular face features a prominent, well-proportioned nose and a strong chin and jawline. His friendly, broad, full-lipped smile is his best feature, and it matches his charming and genuine personality.

Humboldt is a high-energy, intelligent, and hardworking software engineer and healthcare technology entrepreneur. He started his career working at a large tech company before moving on to starting his own business where he feels he can have a greater impact through his work while simultaneously providing flexibility for his non-work adventures and pursuits. He is a fitness enthusiast who loves weightlifting and built a home gym in his garage so he can work out any time that fits his busy schedule. In his free time, Humboldt enjoys going to music festivals, skiing, and cycling. We enjoy his sweet personality and charm, and we think he is a great, well-rounded donor option!
