

### **Briley (12494) Staff Impression**

Briley is cheerful, energetic, and upbeat with a magnetic personality. He is tall with long and graceful limbs. Light brown hair frames his oval face with a slender nose, hazel eyes, high cheekbones, tidy brows, and a broad smile that seemly lights up the room.

Briley is very handy and always in the midst of a car, craft, or home improvement project. He is an engaging conversationalist who enjoys talking about his latest project, good books, theater, and family life. Above all else, he is a doting father and loving family man who beams with pride when he speaks about his wife and children. He is very excited to have the opportunity to help others experience the joys of parenthood and we are excited to be able to offer him as a donor option.
