## **Staff Impression Zeppelin**

Zeppelin is one of the sweetest, passionate, and charismatic people we have met. He is tall, muscular, and has a medium build. His dark brown hair and beard bring out his tan complexion, sultry dark eyes, and frames his pouty lips. His face is rectangular, narrow, and long. His nose matches with a long nasal bridge and narrow features aligning the center of his face.

Zeppelin is well-rounded, has a variety of interests, and has core values of loyalty, thoughtfulness, and leadership. He is invested in Exercise Science not only for the degree but in his day-to-day life. He loves to learn about people, their interests, and experiences that will help build his character and theirs. While, invested in sports and human connection, he also enjoys solitude, reading science nonfiction and manga, playing his guitar, and hiking. We are thrilled to have Zeppelin, someone who is charming and a great listener with strong values, a part of our program.
