

Wiley 14444 Staff Impression

Wiley stands at an impressive 6'5" and he has a lean, muscular build. He has an oval-shaped face that is framed with a full head of wavy dark brown hair and is punctuated with hazel eyes. His full lips and prominent nose with a high bridge contribute to his attractive, masculine appearance, and his dimples and slightly cleft chin add a playful charm and a touch of ruggedness.

Wiley is a driven and accomplished project manager in the biotech industry with a master's degree in engineering management. Passionate about leading businesses, he aspires to either start his own company or advance within his current organization in the coming years. Outside of work, Wiley is an active individual with a passion for sports and outdoor activities including basketball, football, and baseball, hiking, camping, and spending time at the beach. His other pastimes include writing and cooking, with a particular affinity for seafood and Mexican cuisine. We are grateful to have Wiley as part of our donor program, where his values and compassionate nature make him a great donor option!
