

### **Bituin 14627 Staff Impression**

Bituin is a thoughtful and creative guy with a background in visual arts and a passion for storytelling through film and multimedia. His mixed Filipino-Irish heritage shows beautifully in his handsome features; he has striking hazel eyes that seem to shift between green and brown depending on the light, framed by naturally arched eyebrows that give him an open, thoughtful expression. His dark brown hair has a lovely natural wave to it, styled in a relaxed, tousled way that falls just above his shoulders with some pieces gently framing his rectangular face. His facial hair is kept tidy in a well-groomed mustache and goatee that add a touch of maturity to his youthful features. He has a lean, athletic build with a naturally slender frame.

With a degree in Visual Arts and plans for graduate study, Bituin brings a deep sense of purpose and reflection to his work. He's also a hands-on, mechanically inclined person who enjoys building and fixing things, and he thrives in both artistic and athletic pursuits; surfing, golfing, and baseball are among his favorites. Raised in a close-knit and supportive family, he credits his upbringing with shaping his values of empathy, resilience, and kindness. He describes himself as calm, devoted, and philosophical, with a strong drive to connect meaningfully with others. His artistic lens is matched by a love for nature, animals (especially dogs), and travel; he dreams of visiting Ireland to explore the roots of his favorite sport, golf. Bituin is proud of the relationships he's built and the courage he's shown in following his passions. For him, becoming a donor is a way to give back, offering others the chance to build families while staying true to his values of compassion and community.
