

Moss (14238) Staff Impression

Moss is a one-of-a-kind, magnificent guy. He is ruggedly handsome, with stunning green eyes, wavy hair, long eyelashes, and a charming smile. We find Moss's background as a helicopter pilot in the Navy fascinating! In fact, Moss is very close with his brother who followed in his footsteps in the military as well. With his ability to fly helicopters, it goes without saying that he is very intelligent, but also comes off as having a strong sense of integrity and compassion for people.

In his spare time, Moss enjoys rock climbing, hiking, and playing his favorite sport, soccer. Though reserved, he enjoys spending time with friends and family. It warmed our hearts to hear about Moss's personal connection with becoming a donor, as his cousin started their family by conceiving via donor sperm, inspiring Moss to become a donor. We are grateful to have him!
