

## **Dabro 13150 Staff Impression**

Dabro stands at 5'9" with a lean, athletic frame. His long, graceful neck adds to his striking appearance in combination with a classically handsome face featuring sharp angles and a well-defined jawline. His high cheekbones give him a naturally complete his chiseled look, while his round, sleepy eyes exude a relaxed confidence. His nose, long with a subtly flattened bridge, adds to his distinct features, perfectly balanced by a subtly upturned smile. There's an intriguing contrast to him, a blend of refinement and ease that makes him both intriguing and approachable.

Dabro is the kind of guy who can stitch up a wound at 30,000 feet and then build you a handcrafted dining table like it's no big deal. As a medic in the Air Force, he's got steady hands and a cool head under pressure, but when he's off duty, he's all about chasing adrenaline and good times. He's hiked the Grand Canyon just for the challenge, scales boulders like a mountain goat, and plays soccer every week with the kind of energy that makes you wonder if he runs on pure caffeine. (FYI: he doesn't, he really loves breakfast!) Dedicated, adventurous, and always up for a laugh, Dabro is the kind of guy who takes life seriously when it counts but never forgets to have fun along the way.
