

### **Ellington (12509) Staff Impression**

Ellington is intelligent, driven, adventurous, hard-working, and handsome. He has attractive, masculine features with a full head of light brown hair, bright green eyes, a broad smile, and pearly teeth. He is athletic and muscular from years of competitive sports and weightlifting.

Ellington earned his private pilot's license as a teenager, built his own plane over the course of several years, and enjoys flying whenever he has free time! After college, he turned his passion into a career in aviation real estate. When he is not busy with work and has his feet on the ground, he enjoys spending time in nature and competing in the Scottish Highland games! We are thrilled to have such a unique, smart, and friendly donor in our program.
