

Open Donor: Lovett

Staff Impression

Lovett's rosy cheeks, fair skin, and deep-blue eyes contrast quite nicely with his blonde hair. He has a medium build and broad shoulders. His facial features are proportionally set, and his strong jawline and chin are neatly defined. With smooth skin and a clear complexion, Lovett makes for an adorable donor.

Lovett places a lot of importance on family, as he grew up with a tight-knit family himself. He describes himself as an extrovert, which he showcases with his inclusive conversation style and relaxed nature. He enjoys playing and watching baseball and football; and he also plays several instruments and sings! Lovett has many qualities that make him a wonderful donor.
